**The continuum of care at Jade Wellness Center is an ongoing process of improvement that began in 2011**

**The dedication and devotion of the Jade Wellness staff has made this possible.**

*"Care coordination makes all the difference to patients. Organizing patient care and sharing information to achieve safer and more effective outcomes is the goal. Aligning resources to an individual patients needs is a necessity to treat the whole person in the practice of addiction medicine. Anything short of that, is not acceptable."*

*- Lucy M. Garrighan, Founder of Jade Wellness Center*
